We're Here for the Journey

- We provide free and accessible services for new-church leaders to launch & lead thriving churches. This includes Stadia's Discovery Center, essential trainings, cohorts and coaching, project management, post-launch care, and more.

We've Helped Over 2,000 New Churches

- Since Stadia's beginning in 2003, we've helped more than 2,000 new churches start worldwide with services and resources funded by partners like you.

Together, We Can Do More

- We work closely with strategic partners and know that the collective impact we can have together is greater than anything we could accomplish alone.

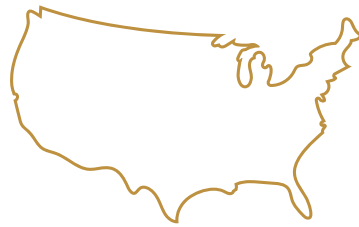

Our Team is Here to Help

- We're a team of almost 50 employees who work remotely all across the United States. Without an office building, we're able to put as many resources as possible toward our mission.

United States Launch Model

\$36,000

Stadia works with any model of church, but the majority of new churches we help start are served through our U.S. Launch Model.

This model guides new-church leaders through our Discovery Process, Project Management and Document Prep Services, Training, Coaching, Cohorts, and our New Church Growth & Multiplication Lab.

This model typically starts with a team in a physical location, and has Stadia's guidance from pre-launch through post-launch and beyond!

You can help start new churches that thrive, grow, and multiply in the United States by investing in this model and equipping new-church leaders with our services at no cost to them.
